Project

Project: Meraki – Coffee Beans Website

- Technologies Used: HTML, CSS, JavaScript, Bootstrap, Python, Django
- Developed an e-commerce platform for premium coffee beans with a clean and responsive UI.
- Implemented the frontend using HTML, CSS, JavaScript, and Bootstrap for a seamless user experience.
- Built backend functionality with Django, including product catalogue, user authentication, and admin management.
- Added search and filter features for better product navigation and usability.
- Optimized site performance to ensure fast load times and mobile responsiveness.
